

**Make the world a better place**

**Reach the poorest people and help eradicate extreme poverty and hunger**

Work for the **United Nations' International Fund for Agricultural Development (IFAD)**.

Most of the world's poorest people live in rural areas. We're making a big push to achieve the Sustainable Development Goals by 2030 and filling a range of vacancies at our Rome headquarters and in our offices around the world.

We are looking to recruit committed and experienced people with expertise in:

- Design and management of agricultural and rural development programmes and projects
- Financial management, financial risk, operational risk, treasury, investment management, audit and investigation
- Climate, gender, ICT4D, nutrition, private sector, social inclusion and natural resources management
- Communication, ICT.

**For specific positions, visit: [www.ifad.org/job](http://www.ifad.org/job)**

We are committed to geographical diversity and a gender-balanced workforce. Candidates with disabilities are encouraged to apply.

IFAD is an international financial institution and a United Nations specialized agency. We finance projects that raise rural incomes, create jobs on and off the farm, empower women, build resilience to climate change and other shocks, and help people take charge of their own development.

All IFAD International Professional staff members are required to be geographically and functionally mobile.
